## VALUE PROPOSITION

As a	application administrator or supervisor user
I want to	link users to their roles
Then	I need a user registry with the possibility of role membership per user

## ACCEPTANCE CRITERIA

- Only the user who is in the admin or supervisor role can access the user list
- Only the user who is in the admin or supervisor role can link users registered in roles
- Each registered user can be linked to a role

## USER STORY CARD

Name:	Link role (role) user
Author:	<a href="#">Daniela Angels</a>
Gives you:	Nov 19, 2020
Actors:	<ul style="list-style-type: none"><li>• admin user or supervisor role</li></ul>
Precondition:	User to be in the administrator or supervisor role

<b>Main Flow:</b>	<ol style="list-style-type: none"> <li>1. User clicks on User <i>management</i> in the side menu</li> <li>2. System displays the screen with the list of users</li> <li>3. User clicks the <i>Edit</i> button next to each item in the user list <ol style="list-style-type: none"> <li>1. System displays page with selected user information</li> </ol> </li> <li>4. User clicks the <i>Change Role</i> button <ol style="list-style-type: none"> <li>1. System displays modal with the user's current role and a Dropdown button to select the new role</li> <li>2. User selects new role</li> <li>3. click save</li> </ol> </li> <li>5. System displays success message ()</li> <li>6. End of use case</li> </ol>
<b>Postcondition 1:</b>	User registered in the application with linked role
<b>Messages:</b>	

## SCENARIOS

@link\_role\_user

Feature: Link user to a role

In order to I need to define a role to a user

As a admin or a supervisor user I want to edit roles of a registered users

Background: access list users and select one

Given I visit "/usuarios" page

And I click edit button of a <user> at the list

And system return "/usuarios-lojas" page to edit user role

Scenario: Save user without linked role

When I click <save> button

And the selected user has no role

Then I should see a warning message

Scenario: Save user with linked role

When I click <save> button

And the selected user has a chosen role

Then I should see a sucess message

And system return to "/usuarios" page
